

# Kumar

## PROFESSIONAL SUMMARY

I am a diligent Plant and Maintenance Engineer, having graduated from Burdwan University and currently excelling at ITD Cementation India Limited. Driven by my passion for new technologies, I am transitioning into data science. I aim to leverage my skills in data analysis, and data visualization to provide impactful business insights. With experience in SQL, Power BI, and Python, I have successfully analyzed large datasets and developed predictive models. My career goal is to become a data scientist who transforms raw data into actionable strategies, contributing to business growth and innovation while fostering my diverse interests in singing and reading.

## EDUCATION
